SUMMARY

- Computer Science Engineering graduate with professional experience in Technical Support and hands-on experience in full-stack web development, AI applications, software testing, and data analytics. Skilled in React.js, Next.js, Node.js, Express.js, JavaScript, Python, SQL, MongoDB, and Git. Experienced in building responsive applications, integrating APIs, troubleshooting technical issues, testing software, and supporting deployments. Seeking Software Developer / Full-Stack Developer opportunities.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Three.js, React Three Fiber, Framer Motion
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL, SQLite, Supabase
AI: AI Application Development, AI Agents, Prompt Engineering
Testing: Functional, Regression, Smoke, Sanity Testing, Bug Reporting, Jira
Tools: Git, GitHub, VS Code, Vercel, Power BI, Excel, Jupyter Notebook

EXPERIENCE

- Technical Support Engineer** Jul 2026 – Present
BluePMS Software Solutions Chennai, Tamil Nadu
- Troubleshoot and resolve technical issues across business applications by analyzing application behavior, logs, and reported defects.
 - Support software development, debugging, testing, deployment, and application maintenance in collaboration with internal technical teams.
 - Assist with DevOps operations and provide technical support and product demonstrations based on customer requirements.
- Front-end Web Developer Intern** Apr 2024 – May 2024
Gauravgo Games Technologies Remote, India
- Developed responsive main, login, and newsfeed pages using **React.js, HTML, and CSS**.
 - Performed **Smoke, Sanity, Functional, and Regression Testing** and tracked defects using **Jira**.
 - Validated backend data using **SQL queries** and collaborated with developers to resolve defects.
- Data Analytics Intern** May 2024 – Jul 2024
HP Computer Patna, India
- Cleaned, transformed, and analyzed Amazon sales datasets using **Microsoft Excel**.
 - Built interactive **Power BI** dashboards to visualize sales trends and business performance.

PROJECTS

- AI-Powered Document & Multimedia Q&A** | *Next.js, React.js, Node.js, Supabase* [GitHub](#)
- Developed a full-stack AI application enabling users to upload documents and multimedia files and query their content using natural-language questions.
 - Built responsive interfaces with **React.js and Next.js** and implemented backend workflows for file processing and AI-powered question answering.
- Salesforce Validation Rule Manager** | *React.js, Salesforce API, OAuth, Tailwind CSS* [GitHub](#)
- Developed a React-based application for creating, editing, and managing Salesforce validation rules through API integration.
 - Implemented **Salesforce OAuth authentication** and connected the application with a Salesforce Developer Org for API-based operations.
- AI Data Agent** | *Python, AI, Data Analytics* [Portfolio](#)
- Developed an AI-driven data analysis application enabling natural-language interaction with data to generate useful insights.
 - Applied data processing and AI-assisted workflows to simplify data exploration and insight generation.

EDUCATION

- Jaypee University of Engineering and Technology** 2021 – 2025
Bachelor of Technology in Computer Science Engineering Guna, India
- Sri Chaitanya Techno School** 2018 – 2020
Senior Secondary (CBSE) Visakhapatnam, India

CERTIFICATIONS

- **SQL Assessment** – LearnTube June 2024
- **IBM SPSS** – ImraTech Academy November 2025
